**Flow Meter LZB Glass Rotor**

Technical parameters

Accuracy rating: 2.5 / 4.0

Applicable media: gas, liquid

Work pressure: 1.0 MPa

Medium temperature: 0 ~ 120

The flow parameters, see product specifications samples

**Main Features**

Showing intuitive, low prices

**Flow rate**

 <p>LLZB100 appearance plans LZB100 picture</p>	Model	Path mm	Flow rate		Profile

LZB-( ) tiny glass traffic flow meter rotor (the type size for the short-Meter, Dimension Dimension table below page of the B and C size)

LZB-( ) tiny glass flow rotor flowmeter including DN3, DN4, DN6, DN10 four Path, can detect the tiny gas or liquid flow, and lightweight structure, regulate sensitive, easy-to-install, widely used for trace detection of environmental protection, Medical light industry, instruments, scientific research, and other departments, for a variety of equipment, environmental equipment, medical equipment and other devices supporting scientific experiments.
